

BIG HOPE Program

Hello, Kelly Middle School Parents—

My name is Roy Burton.

One of my responsibilities as part of Kelly Middle School's Restorative Practices program is to help your children become successful students by helping them to resolve both major and minor problems that come up during the school day.

We are making good progress at Kelly Middle School and improvements are ongoing, but we recognize much more can be done.

This is the reason for my sending you this letter to introduce to you our **BIG HOPE** program, a new effort offered by the Beginning of Independence Group, LLC.

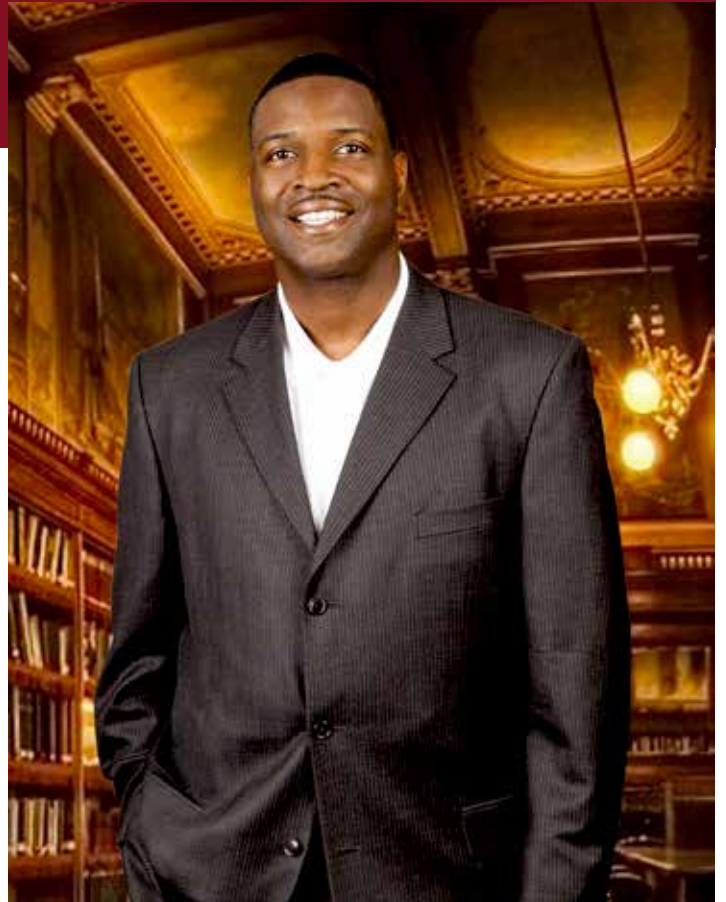

BIG HOPE is designed to help parents just like you with many of the problems that come up in your daily lives—problems that too often can negatively affect your children and their success in school. BIG HOPE provides you with training and assistance with stressful financial and legal problems that often confront families. We provide help in the following areas:

- Identity theft
- Debt mediation
- Credit repair
- Tax preparation and collection issues
- Child support
- No-fault divorce
- Record expungments
- Landlord disputes

... and much more.

Most importantly, the assistance we provide parents is completely confidential, as our firm is certified as professional mediators in financial and legal matters.

The BIG HOPE program is a collaborative process that actively encourages full participation, communication,

and partnership among parents, schools, and communities—all with the goal of educating the whole child to ensure student achievement and success.

Educational research shows that when schools and families fully support each other, students—no matter their background or abilities—achieve at higher levels. We at Kelly Middle School's BIG HOPE Program firmly believe that parents, schools, families and communities—working together—can create a meaningful partnership, ultimately leading to significant gains in your children's achievement.

Sincerely,

Roy Burton
